#### **INDEPENDENT AUDITORS' REPORT**

# TO THE MEMBERS OF MAX ESTATES LIMITED

### Report on the audit of the Financial Statements

We have audited the financial statements of M/s Max Estates Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (Including other comprehensive income), Statement of changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, of its loss and total comprehensive income, changes in equity and its cash flows for the year then ended on that date.

### **Basis for opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Information Other than the financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements and our auditor's report thereon.

The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements, our responsibility is to read the other confirmation identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read other information, if we conclude that there is a material mission therein, we are required to communicate the matter to those charged with and take appropriate action as applicable under the relevant laws and regulation of the relevant laws are required to the relevant laws and regulation of the relevant laws are required to the relevant laws and regulation of the relevant laws are required to the relevant laws are req

# Responsibilities of management and those charged with governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, change in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2. As required by section 143(3) of the Act, we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - c. The Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, the Statement of changes in equity and the statement of Cash Flow Statement dealt with by this Report are in agreement with the books of account;
  - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on 31st March, 2020, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;

- f. With respect to the adequacy of the Internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"; and
- g. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has paid/provide for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - The Company does not have any pending litigations which would impact its financial position;
  - ii) The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses;

There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

### ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 1 under "Report on Other Legal and Regulatory Requirement" section of our Independent Auditors' Report to the members of the Company on the financial statements for the year ended March 31, 2020, we report that:

- 1. (a) As the Company has maintained proper records showing full particulars, including quantitative detail and situation of fixed asset.
  - (b) The fixed asset have been physically verified by the management during the year and no discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed asset is reasonable having regard to the size of the company and the nature of its asset.
  - (c) According to the information and explanations given by the management, there are no immovable properties, included in property, plant and equipment of the company and accordingly, the requirements under paragraph 3(i)(c) of the Order are not applicable to the Company and hence not commented upon.
- 2. The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material.
- 3. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- 4. In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees and securities given in respect of which provisions of section 185 of the Companies Act, 2013 are applicable to the company. Further, since the company is an infrastructure company within the meaning of schedule VI of the companies Act, 2013, the provision of section 186 of companies Act, 2013 is not applicable and hence not commented upon.
- 5. According to the information and explanation given to us, the Company has not accepted any deposits during the year.
- 6. We have broadly reviewed the books of account maintained by the Company pursuant the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, in relation to construction industry and are of the opinion that prima facle, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- 7. According to the information and explanation given to us, in respect of statutory dues:

Charlered

a) According to information and explanations given to us and on the basis of our examination of the books of account, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Goods and Service Tax, Duty of Customs, Cess and any other statutory dues, as applicable with the appropriate authorities wesh.

According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at March 31, 2020 for a period of more than six months from the date on when they become payable.

- b) According to the information and explanations given to us and the records of the Company, there is no due in respect of income tax, goods and service tax and duty of customs as on 31st March 2020 which have not been deposited on account of disputes.
- 8. According to the information and explanations give to us and based on our examination of the records of the Company has not defaulted in repayment of dues to any bank or debenture holder during the year. The company did not have any outstanding loans from financial institution and Government during the year.
- 9. In our opinion and according to the information and explanations given by the management, the Company has utilized the monies raised by way of term loan and debt instruments in nature of Compulsorily Convertible Debentures for the purpose for which they were raised. The Company has not raised any money way of initial public/further public offer during the year.
- 10. According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- 11. According to the Information and explanations given to us and based on our examination of the records of the Company, the Company has paid/provide for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- 12. As the Company is not a Nidhi Company, accordingly clause (xii) of paragraph 3 of the order is not applicable to the Company
- 13. According to the information and explanation given by the management, all transaction with related parties are in compliance with section 188 of Companies Act, 2013 wherever applicable and the details have been disclosed in the notes to financial Statement, as required by the applicable accounting standards. The provision of section 177 are not applicable to the company and accordingly reporting under clause 3(xiii) in so far as it relates to section 177 of the Act is not applicable to the company and hence not commented upon.
- 14. According to the information and explanation given to us and on an overall examination of the balance sheet the company has complled with provision of section 42 of the Act in respect of the private placement of equity shares during the year. According to the information and explanation given by the management we report that the amount raised have been used for the purposes for which those were raised.
- 15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, clause (xv) of the paragraph 3 of the Order is not applicable accordingly.

16. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

# "ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAX ESTATES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/s Max Estates Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

# **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guldance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## Meaning of Internal Financial Controls over Financial Reporting

A company's Internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### 1 Corporate Information

Max Estates Limited (the Company) is a company registered under Companies Act. 2013 and incorporated on 22nd March 2016. The Company engaged in the business of Real Estates development. Registered office of the Company is located at 419, Elai Mohan Singh Nagar, Village Railmajra, Tehail Balachaur, Nawanshehar, Purjab - 144533

The financial statements were authorised for lasue in accordance with a resolution of the directors on 4th June 2020,

#### Similficant accounting policies

These separates financial statement of the Company have been prepared in accordance with Indian Accounting Standards (IND AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to tune) and presentation requirements of division II of Nobedule III to the Companies Act 2013 (and AS Compilest Schedule III), as applicable to these separate financial

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value

(I) Certain financial assets and liabilities that are measured at fair value

Financial Statement are presented in INR and all values are rounded to nearest Lacs (INR 00,000) except when otherwise stated

#### 2.2 Summary of significant accounting policies

#### a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current elassification. An asset is treated as current when it is: (i) Expected to be realized or intended to be sold or consumed in normal operating cycle

(ii) Held primarily for the purpose of trading

(iii) Expected to be realized within twelve mouths after the reporting period, or

(iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-curre

A liability is current when

(i) It is expected to be settled in normal operating cycle

(ii) It is held primarily for the purpose of trading

(iii) It is due to settled within twelve months after the reporting period, or

(iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cush equivalents. The Company has identified twelve months as its operating cycle.

#### b. Property, Plant and Equipment

Under the previous GAAP (Indian GAAP), all assets were carried in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment lesses, if any. On the date of transition to IND AS, the Company has applied exemption of Ind AS 101 to continue carrying value of all property, plant and equipment as at the date of transition as its deemed cost.

Property, Plant and equipment including capital work in progress are stated at cost, less accumulated depreciation and accumulated impainment losses, if any. The cost comprises of purchase price, tax Property, Figure and equipment measuring current whole in progress are named at companies of the concerned assets and are further adjusted by the amount of CENVAT credit and VAT credit availed wherever applicable. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition oritoria are satisfied. All other report and maintenance costs are recognized in profit or loss as incorred.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizion of the asset (calculated as the difference between the not disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is darecognized.

The company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is meterially different from that of the remaining usest.

Capital work- in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year and and adjusted prospectively, if appropriate.

ciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013. The useful life is as follows:

Useful lives estimated by the management (years)

Furniture and fintures 10 Years Office equipment 5 Years Computers 3 Years Vahielee S Years

#### c. Investment property

#### Recognition and initial measurement

Investment properties are properties are properties held to earn rentals or for capital appreciation or both. Investment properties are measured initially at their cost of acquisition including transaction costs. The cost comprises purchase price, betrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and robettes are deducted in arriving at the purchase price. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful liver.

Property held under lease is classified as investment property when it is held to earn rentals or for capital approximion or for both, rather than for sale in the ordinary course of business or for use in production or administrative functions. Subsequent costs are included in the sases's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that fiture economic best associated with the item will flow to the Company. All other repair and resintenance costs are recognised in statement of profit and loss as incurred. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific medial lives. All other repair and maintenance costs are recognised in profit or loss as incorred.

Depreciation on investment properties is provided on the straightline method, over the useful lives of the assets are as follows:

Asset category<sup>a</sup> Estimated

Buildings and related equipment 15 to 60 Plant & Machinery & other equipment 6 to 10

Estimated useful life of Lesschold land is over the period of lesse

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by the company applying a valuation model acceptable

Investment properties are do-recognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of do-recognistion.

#### d. Intensible assets

tangible assets acquired asparately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated internations among sequence represents the internation of manufactures of manufactures and manufactures and manufactures and manufactures and manufactures and manufactures are continuous and accommence to international and accommence and accommence of profit and Loss in the period in which the expenditure is internated. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

The usoful lives of intengible assets are assessed as either finite or indefinite. Intengible assets with finite lives are americand over their useful economic lives and assessed for impairment who The second rives or managenee are assessed as some many a second repaired. The association period and the association method for an intengible asset with a finite useful life is reviewed at least at the end of each reporting pariod. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period, as period, climages in the expected install the or expected period or commission expenses of intended or man of the most in the statement of the commission expense of intended or an intended or the finite lives is recognized in the statement of profit and loss in the expense category consistent with the function of the intensible assets.

consistent view mechanism indefinite useful lives are not amortized, but are tested for impairment sumually, either individually or at the cash-generating unit level. The as manually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prespective basis.

Gains of losses arising from disposal of the intangible assets are measured as the difference between the not disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets are disposed off,

Intangible assets with fails useful life are amortized on a straight line basis over their estimated useful life of 3-6 years.

#### e. Impairment of non financial assets

Impairment or non managements.

The Company assesses at such reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when some impairment tenting for an asset is required, the Company estimates the asset's, recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net this value issue cost of disposal and its value in use. The recoverable estimates the assects, recoverable amount. An same's recoverable amount is the higher or an assect of cush-goverable controlled for an individual sesset, unless the assect does not generate outh inflower that are largely independent of those from other season or groups of samets. Where the carrying amount of asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the season or groups of samets. Where the carrying amount of asset present value using a pre-tax discount rate ties reflects current market assessments of the time value of money and the risks specific to the asset. In determining not first value less cost of disposal, recent market transactions are taken into account, if available, if no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculations on detailed budgets and forecast calculations which are prepared separately for each of the Company's cush-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For the remaining economic life of the searct or cush-generating unit (CGU), a long term growth rate is calculated and applied to project fixure cash flows after the fifth year. To estimate cush flow projections beyond periods covered by the most recent budgets/freeest, the Company extrapolates cush flow rate for the budget using a steady or declining growth rate for subsequent years, unless as increasing rate can be justified. In this case, the growth rate does not exceed the long-form average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

After impairment, depreciation is provide on the revised carrying amount of the asset over its remaining economic life.

An assessments is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the An assumments is many at each reporting dute as to whether mere is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Campany estimates the asset of count-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount above the hast impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, set of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the

#### f. Plumelal Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company classified in financial assets in the following measurement categories:-

Those to be measured subsequently at fair value (either through other comprehensive income or through profit & loss)

- Those measured at amortized cost

#### Initial recognition and measures

Initial recognition and measurements
All financial assets are recognized latitally at fair value plus, in the case of framcial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

For purposes of subsequent measurement, financial assets are classified in four estagories:

(i) Debt instruments at amortised cost

(ii) Debt instruments and equity instrum nents at fair value through profit or lose (FVTPL)

A 'debt just rumout' is measured at the amortized cost if both the following conditions are met:

(b) Business model test: The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows (rather than to sell the instrument prior to its contractual maturity to released its fair value change), and

(ii) Cash flow characteristics text: Contractual terms of the asset give rise on specified dates to each flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account on grandum on acquisition and fees or costs that are an integral part of the EIR. EIR is the rate that exactly discount the estimated future each receipts over the expected cash flow by considering all contractual terms of the financial instrument. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

#### Debt icetra ments at Pair value through profit and loss

Charlered

Accountments

QS

FVTPL is a residual entegery for financial instruments. Any financial instrument, which does not meet the criteria for amortized cost or FVTOCI, is classified as at FVTPL. A gain or loss on a Debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognized in statement of profit or loss and presented not in the statement of profit are loss and presented not in the statement of profit and loss within other income. onkeshwa,

#### Max Estates Limited

Derecognition

- A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:
- -the rights to receive cash flows from the asset have expired, or
- -the Company has transforred its rights to receive each flows from the asset or has assumed an obligation to pay the received each flows in full without material delay to a third party under a "pass through." arrangement and either;
- (a) the Company has transferred the rights to receive such flows from the financial assets or
- (b) the Company has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial sesets, the financial asset is not derecognized.

Where the Company has nother transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is dereognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset.

Inventorios comprise completed units for sale and property under construction (Work in progress):

- (A) Completed Unsold inventory is valued at lower of cost and not realizable value. Cost is determined by including cost of land, materials, nervices and related overheads.
- (B) Work in program is valued at cost. Cost comprises value of land (including development rights), materials, services and other overheads related to projects under construction.

In accordance with IND AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

-Financial sasets measured at amortised cost;
-Financial sasets measured at fair value through other controlled income (FVTOCI);
The Company follows "simplified approach" for recognition of impairment ions allowance on trude receivables. Under the simplified approach, the Company does not track changes in credit risk. Radher, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition, the Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically character of default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical chaerved default rates are updated and changes in the forward looking estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a alguificant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in subsequent period, credit quality of the has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk as increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk as increased significantly, lifetime ECL is used. If, is subsequent period, credit ruality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12-months ECL.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of trade receivables. The provision matrix is based on its instorically observed default rates over the expected life of the trade receivables and is adjusted for forward-loaking estimates. At every reporting date, the historical observed default rates are updated and changes in the forwardlooking estimates are analyzed.

The Company determines classification of financial assets and liabilities on initial recognition, After initial recognition, no reclassification is made for financial exacts which are equity instruments and The Company determines obsertification of Enancial amote and habitities on lattice recognition. After initial recognition, no rectassification is made for managing these sacts, Changes to the business model for managing these sacts. Changes to the business model are expected to be infrequent, The Company's senior messagement determines change in the business model as a result of external or internal changes which are significant to the Company's personal search. Changes in the business model are expected to be infrequent, the content of external parties. A change in the business model occurs when the Company other begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial sancts, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model.

The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

#### (ii) Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or less, loans and borrowings, and payables, not of directly attributable transaction costs. The Company financial liabilities include loans and borrowings including bank overdraft, trade payable, trade deposits, retention money and other payables.

The measurement of financial liabilities depends on their classification, as described below

### Trade Payables

Those ray agong
Those amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trude and other psychias are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using EIR method.

### Planacial liabilities at fair value through profit or less

Financial liabilities at fair value through profit or ions include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or ions. Financial labilities are classified as held for trading if they are insurred for the professor of reporting in the near term. Gains or losses on liabilities and held for trading are recognised in the statement of professor loss. Financial liabilities designated upon initial recognition at this value professor loss are designated as such at the initial date of recognition, and only if the critoria is NTD AS 100 and INTD AS 100 are not stated. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

### Learns and berrowing

Because and our renegation of the second sec

sarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment. Pinancial g when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of IND AS 109 and the amount recognised less cumulative amortization.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or medication is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

#### Offsetting of financial leater

Financial sasets and financial liabilities are offset and the not amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to sottle on a not beals, to realize the assets and gettle the liabilities along

#### Max Entates Limit

#### E. Investment in Subsidiaries

The investment in mobiliarite are carried at cost as per IND AS 27. Investment carried at cost is tested for impairment as per IND AS 36. An investor, regardless of the nature of its involvement with an antity (the investor), shall determine whether it is a parset by assessing whether it controls the investor. On disposal of investores, the difference between its carrying assessing whether it controls the investor.

Revonue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be not before revenue is recognized:

- (i) Revenue is recognised over time if either of the following conditions is met:

  a. Buyars take all the bosefus of the property as real estate developers construct the property.
- b. Buyers obtain physical possession of the property

c. The property unit to be delivered is specified in the contract and real estate entity does not have an alternative use of the unit; the buyer does not have the discretion to terminate the contract and the In case some of these conditions is met, revenue would be recognised at a point in time when the control of the property is passed on to the customer. (ii) Revenue from shared services.

yange from started services in recognized over the period of centract, as and when services are rendered.

(iii) Revenue from project management consultancy / secondment

wenue from project management consultancy / secondment is recognised as per the terms of the agreement on the basis of services rendered.

(by) Gain on sale of investments

disposal of an investment, the difference between the carrying amount and not disposal proceeds in recognised to the profit and loss statement.

(v) Interest and direct exponditure attributable to specific projects are capitalized in the cost of project, other interest and indirect costs are treated as 'Period Cost' and charged to Profit & Loss account in

(vi) All other incomes and expenditures are accounted for on accrual basis.

#### L Taxes

#### Current income tax

Current income max annets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 and the income computation and disclosure standards (ICDS) enected in India by using tax rates and tax laws that are enect ted or substantively enacted, at the reporting date.

Current income tax relating to items re nized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tex items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriets.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the curry farward of unused tax credits and unused tax losses can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deforced tax asset to be utilized. Unrecognized deferred tax assets are re-easessed at each reporting date and are recognized to the extent that it has become probable that future totable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been exacted or substantively exacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside the statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Destroyd tax assets and deserved tax shabilities are offset if a legally enforceable right exists to set off current tax assets against current tax shabilities and the deserved taxes relate to the same taxable entity and the same taxation authority.

The Company recognizes MAT credit available as an annet only to the extent that there is convincing evidence that the Company will pay normal income tex during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The Company reviews the "MAT credit entitlement" annet at each reporting date and writes down the meet to the extent the Company does not have which MAT credit is allowed to be carried forward. The Company revision convincing evidence that it will pay normal tax during the specified period.

#### i. Borrowing costs

Borrowing costs directly attributable to the sequisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the proving of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

The Company applies a single recognition and measurement approach for all lesses, except for short-term lesses and lesses of low-value assets. The Company recognises lesse liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

A lease its classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a

Finance leases are capitalized at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportuned between finance charges and reduction of the lease liability so us to achieve a constant rate of interest on the remaining belance of the liability. Finance charges are recognized in finance and appertunced between triangles can require and treatment of the season amounty so as to sometime and or triangle or the season of the company's general policy on the borrowing costs in the statement of profit and lost, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on the borrowing costs.

A leased must is depreciated over the medial life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating issue payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term unless the payment are structured to increase in line with expected general inflation to compensate for the losses in expected inflationary cost increase.

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a Economic In William to Company come for training successment, an are 1985 man revenue and operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the name term of the leased asset and recognised over the lease term on the name basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

#### L Provision and Contingent Habilities

Previous:
A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to active the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to active the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

#### Contingent Habitities

Contingent liabilities
A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in existence in the financial rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably, the Company does not recognize a contingent liability but discloses in existence in the financial

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

#### Provident food

Frovident fund
The Company contributed to employees provident fund benefits through a trust "Max Financial Services Limited Provident Fund Trust" managed by Max Financial Services Limited (aretwhile Max India state psycholo by the trust to the benefit vests upon commencement of the employment and the Company has an obligation to make good the shortful, if any, between the return from the investment of the employment and the company has an obligation to make good the shortful, if any, between the return from the investments of the trust and the notified interest rate. The Company has obtained actuarial valuation to determine the shortful, if any, as at the Balance Sheet date.

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year

Creaming and a security of a security of the control of the contro period in which they occur. Remeasurements are not ruclessified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the not defined benefit (liabilities/usests). The Company recognized the following changes in the net defined benefit obligation under employee

(i) Service cost comprising current service cost, part service cost, gala & loss on curtailments and non routine settlements.

(ii) Not interest expenses or income

#### Compensated Absences

Compensation responses
Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it it expects to pay as a result of the immed entitlement that has accumulated at the reporting data.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long term employee benefit for measurement purposes. Such long-term occupensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year and Actuarial galacticases are immediately taken to the statement of profit and lone and are not deferred. The Company presents the loave as a current liability in the balance abset, so the extent it does not have at unconditional right to defir its estimated for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the cottlement for a period 12 mouths, the come is presented as non-current liability.

#### Short-term obligations

Labilities for wages and ealeries, including non monetary heasifiz that are expected to be astitled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled, the liabilities are presented as current

Cash and cash equivalents in the balance sheet comprise cash at bunks and on hand and short-term deposits with an original maturity of three months or less, which are subject to as insignificant risk of

Earning per share

Basic cannings per share are calculated by dividing the not profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

The weighted average number of equity shares outstanding during the period is adjusted for events such as becaus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of for the purpose of calculating diluted surnings per share, the net profit or loss for the year and the weighted average number of shares outstanding during the year adjusted for the effects of all potential

### p. Foreign currencles

Error included in the financial statements are measured using the currency of the primary economic environment in which the suity operates ("the functional currency"), the Company's financial statement of in Indian rupes (") which is also the Company's functional and presentation currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction.

### Measurement of foreign currency items at the balance sheet date

retensions of through currency nome as two common uses.

Foreign currency monetary meets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items walls in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in determined.

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or lose extending consumment or minimum or moments are monomer and included an income of expense in the period in value of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the front (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

rair value measurement.

Fair value is the price that would be received to sail an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to self the asset or transfer the liability takes place either

(i) In the principal market for the asset or liability, or

(ii) In the absence of a principal market, in the most advantageous market for the usest or Eablisty

The principal or the most advantageous market must be accessible by the Comp

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best

A fair value recognized of a non-finencial easet takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another

All assets and liabilities for which full value is measured or disclosed in the financial statements are categorized within the fair value hisrarchy, described as follows, based on the lowest level input that is

(i) Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

(ii) Level 2 - Valuation techniques for which the lowest level input that is significant to the flur value measurement is directly or indirectly observable

(iii) Lovel 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial extenses on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This note summarizes according policy for fair value. Other fair value related disclommes are given in the relevant notes,

Disciours for valuation methords, significant estimates and assumptions

 Investment in sequeted equity shares

- Financial instruments ( including those carried at amortised cost)

2.3 Significant accounting judgements, definates and assumptions
In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial exactments.

(a) Determining the Issue term of contracts with renewal and termination options - Company as leases
The Company determines the Issue term as the non-cancellable term of the Issue, together with any periods covered by an option to extend the Issue if it is reasonably certain to be exercised, or any periods

covered by an option to bermanes the sease, if it is reasonably cormin not to be exercised. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to nearly or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reasonable incentive for it is expected or not to exercise the option to reason or the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g.,

The Company included the renewal period as part of the leass form for leases of plant and machinery with abover non-cancellable period (i.e., three to five years). The Company typically exercises in option to reason for these because there will be a significant negative school on production if a replacement asset is not readily available. The renoval periods for lease of plant and machinery with longer non-cancellable periods (i.e., 10 to 15 years) are not included as part of the lease term as these are not reasonably certain to be exercised. Furthermore, the periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised

# Property lease classification — Company as lessor

Property sease capacitation — Company has sentored into occumental property leases on its investment property portfolio. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lesses term not constituting a stajor part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains an abstantially all of the fair value of these properties and accounts for the contracts as operating leases

#### Estimates and assumptions

Estimates and assumptions concerning the fixture and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assects and liabilities within the next financial year, are described below. The Company based in assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about fixture developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the

#### (n) Defined benefit place

(ii) Decimal toward place
The cost of defined benefit plans (i.e. Granuity benefit) is determined using actuarial valuations, An actuarial valuation involves making various sesumptions which may differ from actual developments in The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the detarministion of the discount rate, fixture salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and management considers the interest rates of long-term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate in based on management community are management government government management amazing corresponding to the expected currents of the detailed operation operation operation operation and publicly available mortality tables for the specific countries. Future milery increases and passion increases are based on expected fixture inflation rates. Further details about the assumptions used, including

(b) Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation in catalogues including the Discounted Cash Flow (DCF) model. The imputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fuir values. Judgements include considerations of inputs such as liquidity risk, credit risk and velatility. Changes in assumptions about these factors could affect the reported fair value of

(e) impairment or removal assets are based on sammptions about risk of definit and expected loss rates, the Company uses judgement in making these assumptions and selecting the impairment calculation, based on Company's past blatery, existing market conditions as well as forward looking estimates at the end of each reporting period.

#### (d) Impairment of non-Financial assets

The Company-assesses at each reporting date whather there is an indication that an easet may be impaired. If any Indication excists, or when angual impairment testing for an easet is required, the Company The Company assesses at each reporting date whether there is an indication that an easet may be impaired. If any indication exists, or when animal impairment testing for an easet is required, the Company estimates the assert's recoverable amount. An easet are coverable amount in the higher of an easet's CGU'S fair value less cost of disposal and its value in use. It is detarmined for an individual asset, unless annex is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate their reflects current market assessments of the time value of money and the risks specific to the seset. In determining fair value less costs of disposal, recent market remarketors are taken into account. If no other present value using a pre-tax discount rate their such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

# 30.0 Other Commitments

The Company had entered into an Agreement To Sell with Pharmax Corporation Limited, related party for purchase of part of the building underlying land equivalent to fifty percent (50%) of the land parcel in lieu of the payment of an aggregate sale consideration of Rs.2700 lakhs.

# 32 Financial risk management objectives and policies

The Company's has instituted an overall risk management programme which also focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Corporate Finance department, evaluates financial risks in close co-operation with the various stakeholders.

The Company is exposed to capital risk, market risk, credit risk and liquidity risk. These risks are managed pro-actively by the Senior Management of the Company, duly supported by

#### a) Capital risk

The Company's objective when managing capital is to safeguard its ability to continue as a going concern in order to provide returns to its shareholders and benefits for other stakeholders and to provide for sufficient capital expansion. The capital structure of the Company consists of debt, which includes the borrowings disclosed in notes 11 and 14, cash and cash equivalents disclosed in note 8 and equity as disclosed in the statement of financial position.

#### b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company employees prudent liquidity risk management practices which inter alia means maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities. Given the nature of the underlying businesses, the corporate finance maintains flexibility in funding by maintaining availability under committed credit lines and this way liquidity risk is mitigated by the availability of funds to cover future commitments. Cash flow forecasts are prepared not only for the entities but the Group as a whole and the utilized borrowing facilities are monitored on a daily basis and there is adequate focus on good management practices whereby the collections are managed efficiently. The Company while borrowing funds for large capital project, negotiates the repayment schedule in such a manner that these match with the generation of each on such investment. Longer term cash flow forecasts are updated from time to time and reviewed by the Investment and Performance Review Committee of the Board.

The table below represents the maturity profile of Company's financial liabilities at the end of March 31, 2020 and March 31, 2019 based on contractual undiscounted payments:

March 31, 2019	0-1 Years	1-5 Years	More than 5 Years	Total
Interest bearing borrowings	9,813.68	17.06		9.830.74
Trade payable	4,583.76			4.583.76
Other financial liabilities	. 964.15			964.15
% to Total	99.89%	0.11%	0.00%	100.00%
March 31, 2020			010070	100.0070
Interest bearing borrowings	20,139.60	1,463,45		21.803.05
Trade payable	827,93			827:93
Other financial liabilities	53.15			53.15
% to Total	93.55%	6.45%	0.00%	100.00%

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial

#### (l) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Management evaluate credit risk relating to customers on an ongoing basis. Receivable control management Department assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. The Company provides credit to individuals on exceptional basis only. An impairment analysis is performed at each reporting date on an

Trade receivables		
Particulars	As at March 31, 2020	(Rs. in Lacs) As at March 31, 2019
Neither past due or impaired		1122011 71, 2017
0 to 180 days due past due date More than 180 days due past due date	17.11	37.32.
Total trade receivables	40.44	
(ii) Financial instruments and cash deposit	17.11	37.32

# (ii) Financial instruments and cash deposit

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counter party's potential failure to make payments. Credit limits of all authorities are reviewed by the management on regular basis. All balances with banks and financial institutions is subject to low credit risk due to good credit ratings assigned to the Company.

The Company's maximum exposure to credit risk for the components of the balance sheet at March 31, 2020 and March 31, 2019 is the carrying amounts as illustrated in note 31 and

#### d) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analyses in the following sections relate to the position as at March 31, 2020 and March 31 2019. The analyses exclude the impact of movements in market variables on; the carrying values of gratuity and other post-retirement obligations; provisions; and the nonfinancial assets and liabilities. The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2020.

### (i) Interest rate risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligation at fixed interest rate.

Period		(Rs. in Lacs)

Marsh 31,2019	0.50%	108,93
***************************************	0.50%	49.01

# 31.0 Financial instruments

The comparison of carrying value and fair value of financial instruments by categories that are not measured at fair value are as follows:

Category	Carryle	g Value .	Fair Va	(Ri. In Laci
	March 31, 2020		March 31, 2020	March 31, 2019
I) Financial asset at amortized coat  Current  Loans  Other financial assets  Trade receivables  Cash and cash equivalents  Investments  I) Financial liabilities at amortized cost  Non Current	32.61 146.92 .17.11 5,409.12 47,286.12	11,249.49 4.01 37.32 32,005.17	32.61 146.92 17.11 47,286.12	11,249,45 4,01 37,32 32,005.17
Borrowings Current	1,463.45	17.06	1,463.45	17.06
Borrowings Other financial liabilities Trade payables Financial asset carried at fair value hrough statement of profit & loss Current investments	20,323,06 69.69 827.93	9,801.77 976.06 4,583.76	20,323.06 69.69 827.93	9,801.77 976.06 4,583.76

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values: Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data

The above information has been determined to the extent such parties could be identified on the basis of the information available with the Company regarding the status of suppliers under the MSMED.

- 37 (i) During the year, the Company has invested INR 3,430.96 lakhs as investment in equity shares and INR 3,430.96 as investment in debentures of Northern Propriets Solutions Limited, a newly incorporated subsidiary (51% shareholding) of the Company...
  - (ii) During the year, the Company has acquired 4,71,22,747 Equity shares of Pharmax Corporation Limited of Rs. 10 each fully paid up value Rs.6,073.05 lacs (85% shareholding) and also invested in 1,15,400 10% Cumulative Convertible Preference shares of Rs. 100 each fully paid up at a premium of Rs.1200 value Rs.1,500.20
- 38 The Company has adopted Ind AS 116 "Leases" effective 1 April 2019, as notified by the Ministry of Corporate Affairs (MCA) in the Companies (Indian Accounting Standard) Amendment Rules, 2019, using modified retrospective method. The adoption of this standard did not have any material impact on transition period and
- The outbreak of Coronavirus (Covid-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. In many countries, businesses are being forced to cease or limit their operations for long or indefinite period of time. Measures taken to contain the spread of the virus, including ban on slowdown. Covid-19 is significantly impacting business operation of the companies, by way of interruption in real estate development, production, supply chain disruption, unavailability of personnel, closure/ lock down of production facilities etc. On March 24, 2020, the Government of India ordered a nationwide lockdown for 21 days which further got extended till May 17, 2020 to prevent community spread of Covid-19 in India resulting in significant reduction in economic activities.

The Company is engaged in the business of implementation of real estate projects, both residential as well as commercial, which includes, inter alia, construction, development, operation, marketing, management, planning and sales. Construction of a commercial project currently being undertaken by the Company is Max House, Okhla, Delhi, which before the lockdown, was proceeding within the projected timelines. However, with the declaration of the lockdown, the construction activity had come to a complete stand still between the period from March 24, 2020 till 3rd May 2020, when the Government had lifted the ban on construction activity (in-situ). We have been able to re-commence the construction from 4th May 2020 according to Government directives.

The Company has made detailed assessment of its liquidity position for the next year and the recoverability and carrying values of its assets and investments up to the date of approval of these Ind AS financial statements and have concluded that no material adjustments required at this stage in the financial statements of the Company for the year ended March 31, 2020.

However, the impact assessment of Covid-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of Covid-19 may be different from that estimated as at the date of approval of these Ind AS financial statements and the Company will continue to monitor any material changes to future economic conditions.

40 Figures relating March 31, 2019 has been regrouped/reclassified wherever necessary to make them comparable with the current year figures.
